GANARASKA REGION CONSERVATION AUTHORITY Established 1946

The objects of an Authority are to provide, in the area over which it has jurisdiction, programs and services designed for the purpose of furthering the conservation, restoration, development and management of natural resources in watershed(s).

Watershed Municipalities

The watershed covers an area of 935 square-kilometres and has a population of 75,854.

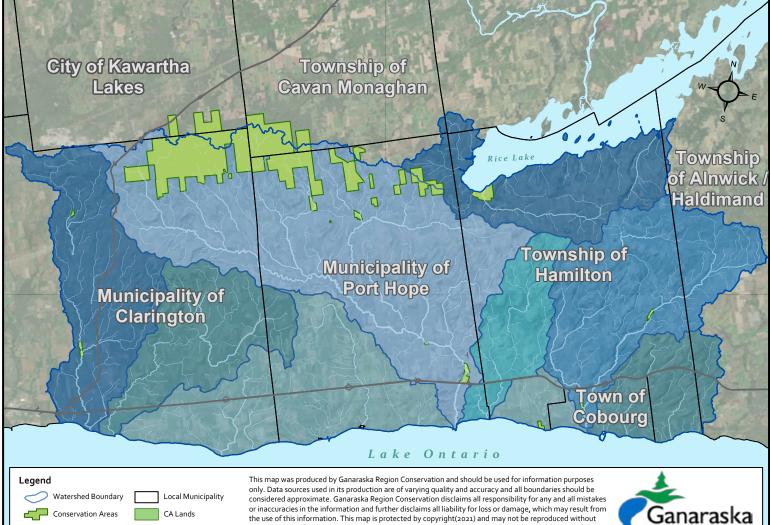

Municipality of Clarington Township of Hamilton Town of Cobourg Township of Alnwick/Haldimand Township of Cavan Monaghan Municipality of Port Hope City of Kawartha Lakes

CONSERVATION

2025 Board of Directors

The Board of Directors usually meets the 3rd Thursday of every month or at the call of the Chair.

THE BUDGET PROCESS

2025 FINANCIAL BUDGET PRESENTATION FORMAT

The Ganaraska Region Conservation Authority (GRCA) has 5 program and service departments:

- \cdot Watershed Management and Health Monitoring
- \cdot Environmental Advisory Services
- \cdot Watershed Stewardship
- \cdot Conservation Lands Management
- \cdot Corporate Services

The departments are further reported in accordance with the categorization as required by the **Regulation 687/21** as explained below.

Conservation Authorities Act (CA Act) Regulations

In October, 2021, the Province of Ontario released Phase 1 regulations designed to implement amendments to the CA Act.

- Ontario Regulation 686/21: Mandatory Programs
 and Services
- Ontario Regulation 687/21: Transition Plans and Agreements for Programs and Services
- Ontario Regulation 688/21: Rules of Conduct in Conservation Areas

The Phase 2 Regulations were finalized under the *Conservation Authorities Act* in April 2022.

The budget columns report on the dollar

throughout the year to reflect unexpected

In cases where the funding received for a

carried forward as deferred revenue.

capital project is not spent, those funds are

the budget figures may have been adjusted

decreases/increases in the funding revenues.

The programs of the GRCA are classified into 5 areas. The budget format reflects the program areas into categories 1, 2 and 3, which are reflected in the *Programs and Services Inventory* and has been attached at the end of the budget. This inventory was finalized and approved by the Board of Directors at the September 21, 2023 meeting.

Categorization of Programs and Services as per Regulation 687/21:

1. Mandatory programs and services Defined in regulation; where municipal levy could be used without any agreement.

- 2. Municipal programs and services Programs and services at the request of a municipality (with municipal funding through an MOU/agreement).
- 3. Other programs and services

Programs and services an Authority determines are advisable (use of municipal levy requires an MOU/agreement with participating municipalities.

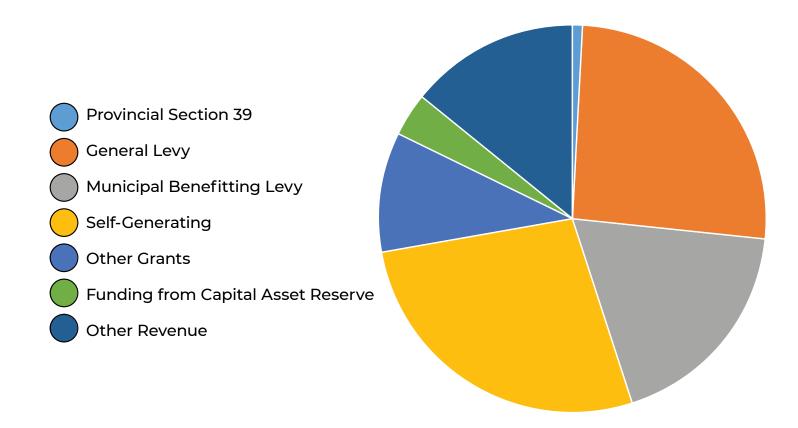

2025 FINANCIAL BUDGET SUMMARY

Ganaraska Conservation's budget for 2025 is \$5,094,727.

The following pages provide some explanation on the revenues and expenditures, a budget breakdown, as well as a breakdown of the levy for each watershed municipality.

2025 REVENUES

- Provincial Section 39 funding of \$51,863.
- The General Levy increase is 3.0% and includes a minimum levy of \$16,953 for a total General Levy of \$1,318,251.
- Municipal Benefitting Levy totals \$929,025.
- Self-Generating Revenue totals \$1,393,728.
- Other Grants of \$508,550.
- Funding from Capital Asset Reserve of \$184,005.
- Other Revenue totals \$709,305.
- Total Revenue ^{\$}5,094,727.

SOURCES OF REVENUE

Provincial Section 39 funding

The Ontario Ministry of Natural Resources and Forestry provides funding to the Ganaraska Region Conservation Authority and it is expected the 2025 funding will remain in the amount of \$51,863. This amount is approximately 50% of the funding that was provided for over the last 20 years and has remained at this reduced amount since 2019. This funding supports the mandated flood forecasting and warning programs.

Municipal General Levy

The municipal general levy is funding provided by municipalities to support Category 1 programs and services such as enabling services of corporate services, low water response, environmental monitoring and conservation land expenses for recreational uses.

Municipal Benefitting Levy

Municipal benefitting levy is funding that supports benefitting or special projects which are projects carried out for specific watershed municipalities. Such projects are normally capital projects and may be shared by two or more municipalities within the conservation authority jurisdiction.

Self-Generating Revenue

Self generating revenue include user fees for planning services and are set to recover but not exceed the costs associated with administering and delivering there services on a program basis can include site inspections and legal inquiries. Ganaraska Forest membership and day passes, as well as bookings at the Forest Centre for education, weddings and camping. Special events, leasing lands, tree planting program revenues and timber management are also included.

Other Grants

Other grants include employment programs.

Funding from Capital Asset Reserve

Funding is set aside each year, \$189,392 in 2025, from the associated program areas and placed in a reserve that is to be utilized to fund the replacement of the physical assets of the GRCA.

Other Revenue

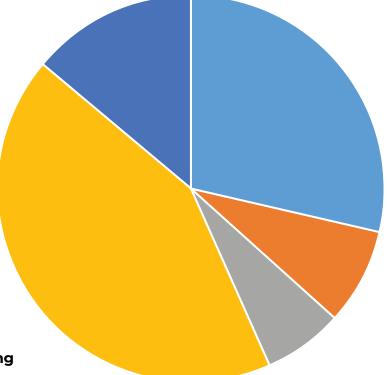

Other revenue includes funding of projects that Ganaraska Conservation partners on with other conservation authorities, municipalities and counties that are outside of the GRCA jurisdiction as well as deferred funding.

Administration fees which are fees charged for payroll costs and overhead against a program or project, are also reported.

2025 FINANCIAL BUDGET SUMMARY

2025 EXPENDITURES

Watershed Management and Health Monitoring

Costs required to develop the framework and management strategy to provide a rational approach to natural systems protection, restoration and use.

Environmental Advisory Services

Costs associated with providing environmental review of development proposals submitted by municipalities, general public and developers.

Watershed Stewardship

Costs associated with providing services and/ or assistance to watershed residents and municipalities on sound environmental practices that will enhance, restore or protect properties.

Conservation Land Management

Costs associated with land or buildings either owned or managed by the Authority and may have active programming on conservation lands.

Corporate Services

Costs associated with the management and programs delivery.

Watershed Management and Health Monitoring Program costs are those required to develop the framework and management strategy to provide a rational approach to natural systems protection, restoration and use. Programs within this area are in Category 1 and 2. *Flood Protection Services* fall within this department, which include costs associated with providing watershed residents with an effective and efficient system that will reduce their exposure to the threat of flood damage and loss of life.

FLOOD PROTECTION SERVICES

Flood Forecasting and Warning – Category I: Procedures, undertaken by the Conservation Authority, required to reduce the risk of loss and property damage due to flooding through the forecasting of flood events and issuing of flood warnings, alerts and advisories to prepare those who must respond to the flood event. This is currently funded about 35% by the province and 65% by general levy.

Flood/Erosion Control Structures – Category 1: Preventative maintenance to the flood and erosion control structures throughout the watershed.

Floodplain Regulations – Category 1: Includes costs associated with implementing the fill and floodplain regulations required ensuring the integrity of the watershed floodplain management system.

Floodplain Mapping & Flood Mitigation Projects – Category 1: Floodplain mapping improves flood management response and assists municipalities to understand their flood risk. Includes partnership projects funded by the Flood Hazard Identification and Mapping Program (FHIMP).

GIS Services & Remote Sensing – Category 2: GRCA staff continue with these partnerships. **Resource Inventory and Environmental Monitoring** – **Category 1:** The groundwater program, funded by the Region of Durham, Municipality of Port Hope and the Township of Hamilton is also reflected under this area.

Category 2: The Municipality of Clarington, with Port Hope, Cobourg and Hamilton are funding watershed monitoring.

Natural Heritage Mapping – Category 2: A natural heritage mapping for the watershed is continuing using funds from the Municipality of Clarington.

Source Protection Planning – Category 1:

GRCA is part of the *Trent Conservation Coalition (TCC) Source Protection Program*, at protecting the sources of water (rivers, lakes, aquifers) used for municipal drinking water systems.

Watershed Plans & Strategies – Category 2:

Projects undertaken by the Conservation Authority to provide a broad understanding of ecosystem function and status and to make recommendations for appropriate environmental resource management, land use change, land management change, or redevelopment and restoration, on a watershed basis.

PROGRAMS & SERVICES

ENVIRONMENTAL ADVISORY SERVICES

The Environmental Advisory Services Program costs are those associated with providing environmental review of development proposals submitted by municipalities, general public and developers. General levy and plan review fees for stormwater management fund this service area.

Municipal/Public Plan Input & Review – Category 1: Includes municipal/public official plan review, comprehensive zoning bylaws, secondary plan review and general planning studies.

Development Plan Input & Review – Category I: Includes development driven review of plans of subdivision and condos, official plan amendments, land division review, site plans and zoning bylaws and variances. Ganaraska Region Conservation Authority also provides engineering services to neighbouring conservation authorities on a fee for service basis.

Watershed Ecology – Category 2: Includes the ecological program of the Authority.

PROGRAMS & SERVICES

WATERSHED STEWARDSHIP

The Watershed Stewardship Program costs are those associated with providing and/or assistance to watershed residents on sound environmental practices that will enhance, restore or protect their properties. *Watershed Stewardship* is classified as Category 2 & 3 in the *Programs and Services Inventory*.

LAND STEWARDSHIP

Clean Water - Healthy Land

The Clean Water-Healthy Land Program is a stewardship program funded by Durham Region, Trees Ontario, Oak Ridges Moraine Foundation and landowners.

For Durham Region landowners, this program is subsidized by the Region of Durham. This program is also offered by the Municipality of Port Hope and the Township of Hamilton for the landowners, within the municipalities and in partnership with the Conservation Authority.

Partner Projects include the partnership with the Greater Golden Horseshoe Conservation Authorities Coalition (GGH CAC).

PROGRAMS & SERVICES

CONSERVATION LAND MANAGEMENT

This program area includes all expenses associated with land or buildings either owned or managed by

Passive Recreation – Category 1: The costs associated with lands and buildings that do not have active programming. The expenses included are the costs for owning or managing the land.

Programmed Recreation – The direct costs associated with delivering active programming on Conservation Authority lands. This includes the Ganaraska Forest Centre and the Ganaraska Forest.

Ganaraska Forest Centre – Category 3: For over forty years, the Ganaraska Region Conservation Authority has provided a unique outdoor education experience to elementary and secondary students at the Ganaraska Forest Centre. The outdoor education facility offers both day and overnight education programming.

Such programming offered includes: map reading, orienteering, forest studies and stream and pond study. As well, the facility is rented out to Scouts and Girl Guides for weekend use.

the Authority. This area is divided into passive recreation and programmed recreation.

Ganaraska Forest – Category 1 & 3: On April 1st, 1997, the Conservation Authority took back management of the Ganaraska Forest from the Ministry of Natural Resources. Revenue from the forest comes from the sale of timber and membership fees.

For 2025, the revenue from timber contracts are estimated at \$250,000. It is anticipated that the damage caused by the derecho windstorm in 2022 will impact future forest timber management revenues for several years.

The partnership with Treetop Trekking continues and revenues are estimated at \$36,000.

PROGRAMS & SERVICES

CORPORATE SERVICES

This budget area provides the leadership and management in the delivery of all programs and services. It is composed of the wages and benefits of staff of the Conservation Authority, whose main function is to provide coordination, support and

services to all programs rather than specific programs. All expenses associated with the Board of Directors are directed to this area. As well, expenses associated with the operations of the administration building.

Programs and Services Inventory:

Corporate Services is classified as supporting services under **Category 1**. Capital Asset Replacement costs are also classified as supporting services and charged throughout the Category 1 programs and services.

Program Description: Key assistance provided to all departments of the conservation authority, board of directors, member municipalities and the general public to enable Ganaraska Conservation to operate in an accountable, transparent, efficient and effective manner.

Specific items include:

Corporate/Finance Management - includes all administrative and financial staff wages, benefits and expenses, general membership expenses as well as corporate expenses for the Conservation Authority, which includes the levy to Conservation Ontario Office Services – includes all wages and benefits for IT staff, as well as expenses, supplies, equipment, computer services, maintenance and utilities for the main administrative building for the various program areas.

Corporate Communications – includes wages and benefits for staff working on communication projects, as well as community and public relations expenses, website maintenance and any information costs.

All publications, advertising and Authority staff uniforms are included in this program area.

GRCA RESERVES

The Ganaraska Region Conservation Authority has six reserves.

Capital Asset Replacement Reserve

The Ganaraska Region Conservation Authority developed a *Capital Asset Replacement Plan* in 2016. The goal of every capital asset management plan is to define the use of assets in order to streamline productivity and delivery with minimal loss of capital.

This reserve will replace the equipment reserve that had been previously established in 1992 and does not include any grant dollars. This reserve is allocated to major maintenance and replacement of the GRCA capital assets. This reserve is an essential part of the GRCA's ongoing fiscal responsibility framework, as it guides the purchase, maintenance and disposal of every asset GRCA needs in order to conduct business.

Forest Purchase Reserve

This reserve was established in 2001 with a donation from the Township of Cavan Monaghan. A bequeath received in 2024 has added to this reserve.

Forest Centre Reserve

The original reserve was established in 1986. Upon completion of the Forest Centre rebuild in 2009, the reserve was redirected to be used if there was a shortfall in the revenues due to strikes by schools or other situations when the revenues are not able to cover the expenses. Monies are transferred

into the reserve from the Forest Centre revenues when appropriate and the revenues exceed the expenses in any given year at the end of the year prior to the completion of the financial statements.

Barbara Young Bequest

In 2015, the Authority received a bequest from the estate of Barbara Young. The total amount received was \$57,981. Although the amount was not externally restricted, the Authority has elected to spend the funds on a new Trappers and Traders program.

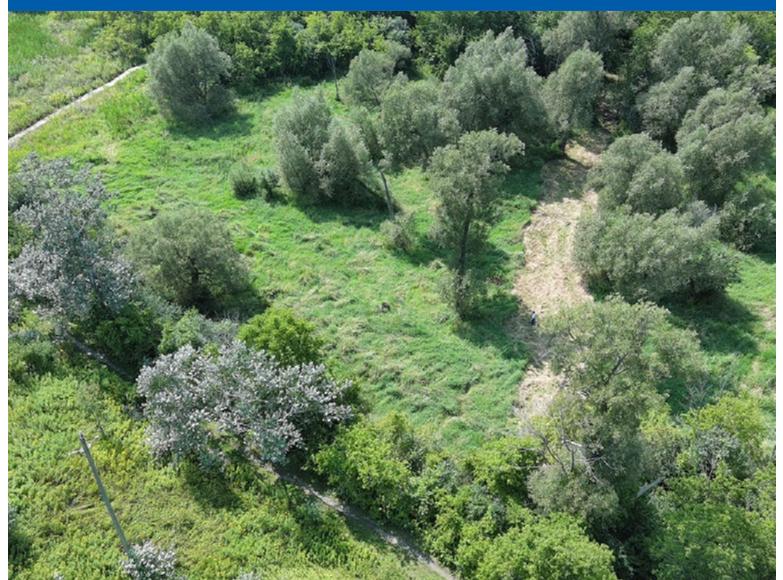

Save the Ganaraska Again

This reserve was set up in 2018 with funds received from the *Save the Ganaraska Again* organization. The funds are to be used to subsidize students who cannot afford to attend the outdoor education programs.

Ganaraska Forest Reserve

This reserve was set up in 2024 to be utilized if there was a shortfall in the revenues due to reduced timber sales in any given year when the revenues are not able to cover the expenses. Monies are deposited into the reserve from the Ganaraska Forest revenues if the total revenues exceed the expenses in any given year at the end of the year prior to the completion of the financial statements.

GRCA 2025 GENERAL LEVY

| Municipal Partner | 2024 Levy | 2025 Levy |
|-------------------------------|------------|------------|
| Municipality of Clarington | 658,596.76 | 677,779.49 |
| Town of Cobourg | 258,545.20 | 266,488.94 |
| Municipality of Port Hope | 205,927.32 | 213,290.62 |
| Township of Alnwick/Haldimand | 14,269.01 | 14,721.80 |
| Township of Hamilton | 134,210.69 | 137,436.72 |
| Township of Cavan Monaghan | 4,865.56 | 4,992.00 |

Program/Service & Sub-services

Description

Category (1,2,3)

Support Services

Program Description: Key assistance provided to all departments of the conservation authority, board of directors, member municipalities and the general public to support Ganaraska Conservation to operate in an accountable, transparent, efficient and effective manner.

| CS | Corporate Services | Administrative, human resources, operating and capital costs which are not directly related to the delivery of any specific program or service, but are the overhead and support costs of a conservation authority. Includes health and safety program, | 1 |
|----|---|--|---|
| | | overseeing programs and policies. | |
| CS | Financial Management | Annual budget, accounts payable and receivable, payroll, financial analysis, financial audit, administration of reserves and investments, financial reports for funding agencies, preparing and submitting reports to CRA, benefits program administration. | 1 |
| CS | Legal Expenses | Costs related to agreements/contracts, HR, etc. | 1 |
| CS | Governance | Supporting CA Boards, Advisory Committees, Office of CAO/ST | 1 |
| CS | Communications & Outreach | Public awareness-natural hazards, flood forecasting and warning, permitting requirements, natural hazard identification, mitigation, readiness and response, governance, policy, municipal and public relations and engagement, conservation lands. | 1 |
| CS | Administration Buildings | Administrative office and Millennium Building used to support staff, programs, and services. Includes utilities, routine and major maintenance, property taxes. Included is a charge out for capital asset replacement. | 1 |
| CS | Information Technology Management/ GIS | Data management, records retention. Development and use of systems to collect and store data and to provide spatial geographical representations of data. Included is a charge out for capital asset replacement. | 1 |

Description

Category (1,2,3)

Natural Hazard Management Program

Program Description: Conservation Authorities (CAs) are the lead provincial agencies on Natural Hazard issues. The goal is to protect life and property from flooding and erosion. This watershed-wide, comprehensive program includes development applications and permits, municipal plan input and review, environmental planning and policy, flood forecast and warning, flood and erosion control infrastructure, technical studies, ice management, education and public awareness.

| | 1 1 | | |
|------|---|---|---|
| WMHM | Section 28 Permit Administration | Reviewing and processing permit applications, associated technical reports, site inspections, communication with applicants, agents, and consultants and legal costs. Violations also fall under this category. | 1 |
| EAS | Municipal Plan Input & Plan Review | Technical information and advice to municipalities on circulated municipal land use planning applications (Official Plan and Zoning By-law Amendments, Subdivisions, Consents, Minor Variances). Input to municipal land-use planning documents (OP, Comprehensive ZB, Secondary plans) related to natural hazards, on behalf of Ministry of Natural Resources and Forestry (MNRF), delegated to CAs (1983). Input to the review, approval processes under other applicable law, with comments related to natural hazards, wetlands, watercourses, and Sec. 28 permit requirements. | 1 |
| WMHM | Flood Forecasting & Warning | Daily data collection and monitoring of weather forecasts, provincial and local water level forecasts, watershed conditions, snow surveys, flood event forecasting, flood warning, communications and response and equipment maintenance. | 1 |
| WMHM | Flood & Erosion Control Infrastructure Operation & Management | Water and erosion control infrastructure operations and management. Includes all water management structures (flood control, dams and channels, berms, erosion control, etc.) that are annually inspected and routine maintenance work completed. Included is a charge out for capital asset replacement. | 1 |

| Program Area | Program/Service & Sub-services | Description | Category (1,2,3) |
|-----------------|---|--|---------------------|
| Natural Hazaro | d Management Program | | |
| WMHM | Flood & Erosion Control Infrastructure Operation & Management | Major maintenance on flood and erosion control structures as required. Projects are dependent on Water and Erosion Control Infrastructure (WECI) funding from the province and support from our municipal partners. | 1 |
| WMHM | Low Water Response | Conditions monitoring and analysis. Technical and administrative support to the Water Response Team representing major water users and decision makers, who recommend drought response actions. | 1 |
| WMHM | Information Management | Data collection, mapping, data sets, watershed photography. Development and use of systems to collect and store data and to provide spatial geographical representations of data. This includes our Geographical Information Systems and support. | 1 |
| WMHM | Technical Studies & Policy Review | Studies and projects to inform Natural Hazards Management Programs, including floodplain management, watershed hydrology, regulations areas mapping update, flood forecasting system assessment, floodplain policy, Lake Ontario Shoreline Management. These projects often occur for a specific number of years and are distributed over time as human resources and funding is available. | 1 |
| CL | Natural Hazards Communications, Outreach & Education | Promoting public awareness of natural hazards, including flooding, drought and erosion. Attending public events, supplying materials. Social media services. Media relations. Educate elementary school students through the <i>Spring</i> <i>Water Awareness Program</i> about the danger of floodwaters, dangers of dams, etc. | 1 |

Provincial Water Quality & Quantity Monitoring

Program Description: Ganaraska Conservation, in partnership with Ministry of Environment, Climate Change and Parks (MECP), has established long term sites to monitor surface and ground water conditions, as well as an investment into long-term monitoring of climate change trends.

| WMHM | Provincial Water Quality Monitoring Network (PWQMN) | CA/MECP partnership for stream water quality monitoring at 9 sites. Staff take water samples and MECP does lab analysis and data management. Information is used for <i>Watershed Report Cards</i> and stewardship project prioritization. | 1 |
|------|---|---|---|
| WMHM | Provincial Groundwater Monitoring Network (PGMN) | A long-standing CA/MECP partnership for groundwater level and quality monitoring at 17 stations. Costs include sampling, data collection, analysis, data management and reporting. MECP funded network installation and continues to fund equipment replacements. Data collected supports groundwater monitoring, low water response and water quality monitoring. | 1 |

Local Water Quality Monitoring

Program Description: Ganaraska Conservation, in partnership with community organizations, municipalities, and federal and provincial agencies has established sites to monitor surface water quality and quantity as well as many other parameters to support a healthy ecosystem.

| WMHM | Surface Water Quality Monitoring Program | Surface water quality monitoring at 18 surface water sites (in addition to PWQMN), water quantity measurements at 80 baseflow sites and water quality samples collected at 4 auto sampler sites supporting Lake Ontario nearshore water monitoring. Costs include sampling, analysis, equipment maintenance and reporting. | 2 |
|------|---|--|---|
|------|---|--|---|

Program Program/Service Description Area & Sub-services

Drinking Water Source Protection

Program Description: The protection of municipal drinking water supplies in the Trent Conservation Coalition (TCC) Region and the Ganaraska Region Source Protection Area through the development and implementation of TCC Source Protection Plans. Ganaraska Conservation is a member of the TCC which is a complex regional grouping of five Source Protection Areas, including Ganaraska, Crowe, Otonabee, Kawartha and Lower Trent Authorities.

| WMHM | Local Source Protection Area DWSP | Source Protection Authority reports, meetings and governance. Delivery of the activities required by the <i>Clean Water Act</i> and regulations, as per <i>Clean Water Act</i> . | 1 |
|------|--------------------------------------|--|---|
| WMHM | DWSP Risk Management Official | Carrying out Part IV duties of the <i>Clean Water</i> <i>Act</i> on behalf of municipalities through service agreements. | 2 |

Core Watershed-based Resource Management Strategy

Program Description: The purpose of a watershed plan is to understand the current conditions of the watershed and identify measures to protect, enhance and restore the health of the watershed. Watershed strategies provide a management framework to provide recommendations which consists of goals, objectives, indicators and management recommendations. This addresses existing issues in the watershed and mitigate impacts from potential future land uses, while recommending appropriate actions to protect, enhance and restore the watershed.

| NEW | Watershed-Based Resource Management Strategy Development | New Project: Collate/compile existing resource management plans, watershed plans, studies and data. Strategy development, implementation and annual reporting. This project builds on previous <i>Watershed Management Strategies</i> . To be completed on or before December 31, 2024 , per requirements of Regulation. | 1 |
|-----|--|---|---|
|-----|--|---|---|

Sub-watershed Plans and Projects

Program Description: Watershed strategies provide a management framework to provide recommendations which consists of goals, objectives, indicators and recommendations. This addresses existing issues in the watershed and mitigate impacts from potential future land uses, while recommending appropriate actions to protect, enhance and restore the watershed.

| WMHM | Natural Heritage Mapping | Ganaraska Conservation incorporates natural heritage information, particularly around wetlands, to develop planning and regulatory strategies to mitigate downstream natural hazards. Data is also used in hydrologic and hydraulic models. | 2 |
|------|-----------------------------|---|---|
| EAS | Watershed Ecology | Ganaraska Conservation provides watershed ecology services to specific watershed municipalities. | 2 |

Conservation Authority Lands and Conservation Areas

Program Description: Ganaraska Conservation owns over 11,000 acres of land, which includes conservation areas, the Ganaraska Forest, significant wetlands and flood control structures and surrounding land. Ganaraska Conservation property is essential to watershed management, environmental protection, helps implement the Watershed Management Strategy and provides areas for passive recreation.

| CL | Section 29 Enforcement and Compliance | Conservation Areas / Ganaraska Forest / regulation enforcement and compliance. Ganaraska Conservation staff and a contracted company patrol the 11,000 acres Ganaraska Forest and conservation areas to ensure that the regulations are being adhered to by the users. | 1 |
|----|--|---|------|
| CL | Ganaraska Forest | Category 1 - Ganaraska Conservation owns and maintains the 11,000 acre Ganaraska Forest. The forest has 100's of kilometers of multi-use trails that require maintenance year round. This Includes recreation, forest management, risk management program, hazard tree management, gates, fencing, signage, communications, pedestrian bridges, trails, parking lots, picnic shelters, road, restoration, ecological monitoring, carrying costs such as taxes and insurance. The <i>Ganaraska Forest Management</i> <i>Plan</i> guides the management of the forest. The plan's primary goal is "to conserve, enhance and, where feasible, restore the Forest ecosystem to reflect the native biodiversity of the Ganaraska Forest, while at the same time embracing recreational, educational and social activities that support the health and sustainability of the Forest." Category 3 – GRCA also performs timber management within the Forest. The <i>Forest</i> <i>Management Plan</i> lists principles by which the forest is managed and the last principle states that "the Ganaraska Forest provides a sustainable economic benefit to the GRCA, without compromising the ecological health of the Ganaraska Forest." The revenues vary from year to year based on the plan. Expenses are matched with those revenues. | 1, 3 |

| DDOCDAMS | & SERVICES | |
|----------|------------|--|
| FROORAMS | | |

| Program Area | Program/Service & Sub-services | Description | Category (1,2,3) |
|-----------------|--|---|---------------------|
| Conservation | Authority Lands and Con | servation Areas | |
| CL | Conservation Areas | The GRCA is responsible for the management and maintenance of 9 conservation areas, as well as other lands that are not formal conservation areas. This includes passive recreation, forest management, risk management program, hazard tree management, gates, fencing, signage, communications, pedestrian bridges, trails, parking lots, picnic shelters, road, restoration, ecological monitoring, carrying costs such as taxes, insurance and capital asset replacement. | 1 |
| CL | Conservation Area Major Maintenance | Major maintenance and capital improvements to support public access, safety and environmental protection, such as pedestrian bridges, boardwalks, pavilions, trails. These expenses are covered by the capital asset reserve in most cases. | 1 |
| CL | Land Acquisition | Strategic acquisition of environmentally significant properties. | 2, 3 |
| NEW | Inventory of Conservation Authority Lands | New Project: The land inventory will include the following information: location, date obtained, method and purpose of acquisition, land use. Project updates as inventory changes. To be completed on or before December 31, 2024 per requirements of Regulation. | 1 |
| NEW | Strategy for CA owned or controlled lands and management plans | New Project: A strategy to guide the management and use of CA-owned or controlled properties, including guiding principles, objectives, land use, natural heritage, classifications of lands, mapping, identification of programs and services on the lands, public consultation, publish on website. Updates of existing conservation area management plans. To be completed on or before December 31, 2024 per requirements of Regulation. | 1 |
| NEW | Land Acquisition and Disposition Strategy | Update current policy to guide the acquisition and disposition of land to fulfill the objects of the Authority. To be completed on or before December 31, 2024 per requirements of Regulation. | 1 |

Watershed Stewardship

Program Description: The watershed stewardship program includes a fisheries component, a program funded by municipalities which provides funding for landowners for projects and the landowner tree planting program.

| WS | Private Landowner Stewardship Program | Clean Water-Healthy Land – Financial Assistance Program: In partnership with some of the watershed municipalities, Ganaraska Conservation offers environmental, technical and financial assistance, tools and information to any resident, business, school or service club within its jurisdiction and within the participating municipality. | 3 |
|----|--|--|---|
| WS | Tree Planting Services | Clean Water-Healthy Land – Tree Planting GRCA Tree Seedling Program allows property owners to purchase bare root native tree and shrub seedlings at a minimal cost. GRCA also provides full service tree planting to landowners. | 3 |
| WS | Fisheries Services | In partnership with Fisheries and Oceans Canada, Ganaraska Conservation staff are responsible for the <i>Sea Lamprey Monitoring Program</i> on Cobourg Creek, which captures and samples many different species, records the results and submits data. Fish surveys are also done with other partners, such as OPG and Hydro One through agreements. | 3 |
| WS | Stewardship Partner Projects | Ganaraska Conservation's stewardship program partners with various organizations to deliver environmental programs and projects. These programs are for a limited time period. Examples include the Highway of Heroes Tree Campaign tree planting partnership, Forests Ontario and the Durham Collaborative Tree Program. | 3 |

Program Program/Service Description Area & Sub-services

Category (1,2,3)

Other Program Areas

Program Description: Ganaraska Conservation delivers other programs that are not part of the mandatory programs and services as outlined in O. Reg. 686/21. All of the programs are funded without municipal general levy. All of the programs influence and enhance the health and watershed management of the GRCA and are part of a larger integrated watershed management model.

| CL | Outdoor Education | The Ganaraska Forest Centre, located in the heart of the Ganaraska Forest, is home to the <i>Outdoor</i> <i>Education Program</i> of the GRCA where thousands of students visit for a day or overnight to learn about their environmental footprint and become familiar with the natural world around them. Taught by Ontario-certified teaching staff, the GFC offers curriculum-based education programs for elementary and secondary students. These programs focus on local watersheds, ecosystems and environmental issues. Programs can also take place at schools (indoors and outdoors) or through online learning. | 3 |
|-----|-------------------|---|---|
| NEW | Other | Opportunities for new projects or programs that benefit the watershed and its municipal partners can occur anytime and can have varying durations. These projects may require matching funding or be self-sustaining. New projects may require municipal participation and/or funding. | 3 |

LANDS ACKNOWLEDGEMENT

The Ganaraska Region Conservation Authority respectfully acknowledges the land on which we gather is situated within the traditional and treaty territory of the Mississauga's and Chippewa's of the Anishinabek, known today as the Williams Treaties First Nations.

Our work on these lands acknowledges their resilience and their longstanding contributions to the area. We are thankful for the opportunity to live, learn and share with mutual respect and appreciation.
