

Clean Water Act, Part IV, Section 59 Inquiry Form:

Application To Engage In An Activity In A Protected Area, Near Municipal Water Supply

Under the *Clean Water Act (Act)*, a drinking water threat is, “an activity or condition that adversely affects or has the potential to adversely affect the quality or quantity of any water that is or may be used as a source of drinking water.” The *Act* lists the specific activities that are a drinking water threat.

The Risk Management Official for the Ganaraska Source Protection Area will review this application to determine if any associated activities (existing or proposed) may represent a significant threat to the source of a municipal drinking water supply and if any policy(s) contained in the *Ganaraska Source Protection Plan* may apply. The *Ganaraska Source Protection Plan* contains policies intended to manage drinking water threat activities and protect municipal drinking water sources.

1.0 Contact Information (To be completed by Landowner / Agent)

Landowner Name:

Applicant / Agent (if different):

Plan:

Vulnerable Area (please check www.trentsourceprotection.on.ca or contact Ganaraska Conservation):

3.0 Application Type (Check all that apply)

☐

Building Permit

☐

Zoning Change

☐

Minor Variance

☐

Severance / Subdivision

☐

Change of Ownership

☐

Land-Use Change

☐

Other (Please Specify):

4.0 Land Use

PRESENT LAND USE

- ☐ Residential
- ☐ Agricultural
- ☐ Commercial
- ☐ Institutional
- ☐ Industrial
- ☐ Other (Please Specify):

PROPOSED LAND USE

- ☐ Residential
- ☐ Agricultural
- ☐ Commercial
- ☐ Institutional
- ☐ Industrial
- ☐ Other (Please Specify):

5.0 Site Services (Check all that apply)

- Sanitary Connection ☐ Municipal ☐ Septic System ☐ Holding Tank
- Water Service ☐ Municipal ☐ Drilled / Dug Well ☐ Shore Well ☐ Cistern
- Heating Fuel ☐ Geothermal ☐ Heating Oil ☐ Other
- Other Services

6.0 Approvals Given Under Other Legislation (if applicable)

- ☐ Permit to Take Water >50,000 Litres/Day ☐ Pesticide Permit
- ☐ Certificate of Approval (CofA) or Environmental Compliance Approval (ECA) ☐ Approval No. & Issued For:
- ☐ Nutrient Management Act Instrument ☐ Strategy ☐ Plan
- ☐ Aggregate Resource Act Instrument ☐ License ☐ Permit

7.0 Proposed Activity

Please provide description of what you propose to do and, if applicable, please provide drawing(s) with application

Please select the activities from the list below that are **currently occurring or proposed to occur** on your property by selecting 'Yes' or 'No'. For any activity selected 'yes', please indicate if the activity is currently occurring on the property 'Existing' or if the activity is related to your proposal 'Proposed'. If 'Yes', 'Existing', and/or 'Proposed' was selected from the list, additional information may be requested.

Yes	No		Volume	Existing	Proposed
Fuel Handling & Storage					
<input type="checkbox"/>	<input type="checkbox"/>	Liquid fuel & fuel oil (excluding home heating oil), if Yes, provide Volume:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Heating oil, if Yes, provide Volume:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
Chemical Handling & Storage					
<input type="checkbox"/>	<input type="checkbox"/>	Automobile related, if Yes, provide Volume:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Dry cleaning related, if Yes, provide Volume:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Industrial manufacturing & processing, if Yes, provide Volume:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Industrial strength cleaning agents, if Yes, provide Volume:	<input type="text"/>	<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Road salt storage (>500 Tonnes)		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Road salt application (larger than single family dwelling)		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Snow storage (area >0.01 ha (approx. 2.5 ac or 10,000 m ² (100 m x 100 m)))		<input type="checkbox"/>	<input type="checkbox"/>
Water Disposal					
<input type="checkbox"/>	<input type="checkbox"/>	Raw, untreated liquids & solids from septic systems & holding tanks		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Hazardous, liquid industrial, commercial, petroleum refining waste & PCB waste		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Waste generated from medical, dental or veterinarian practices		<input type="checkbox"/>	<input type="checkbox"/>
Stormwater Management					
<input type="checkbox"/>	<input type="checkbox"/>	Storm water management facility or lagoon		<input type="checkbox"/>	<input type="checkbox"/>
Sewage System (Septic)					
<input type="checkbox"/>	<input type="checkbox"/>	Treatment of <10,000 L/day (e.g. for single family dwelling or other small scale use)		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Treatment of >10,000 L/day		<input type="checkbox"/>	<input type="checkbox"/>
Agricultural-related					
<input type="checkbox"/>	<input type="checkbox"/>	Grazing, pasturing or livestock confinement yard		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Application, handling or storage of non-agricultural source material (see Appendix A)		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Application, handling or storage of agricultural source material (see Appendix A)		<input type="checkbox"/>	<input type="checkbox"/>
<input type="checkbox"/>	<input type="checkbox"/>	Application, handling or storage of commercial fertilizers or pesticides, if Yes, provide chemical name(s) and Volume(s) below:		<input type="checkbox"/>	<input type="checkbox"/>
<input type="text"/>					

Terms & Conditions

- Notices issued under Section 59 of the Clean Water Act by the Risk Management Official, are non-transferable.
- Permits and Approvals may be required from other agencies prior to undertaking any activities that may be associated with this application.
- The issuance of a Notice upon review of this Application does not exempt the owner/applicant from complying with any or all applicable laws, statutes, ordinances, directive, regulations, approvals, guidelines, etcetera, as they may relate to the activities carried out on the subject property.
- Additional information may be required to process the Application, the costs of which will be borne by the applicant.
- Insufficient information may delay the processing of the application.
- The Risk Management Official may enter the Subject Property which is the subject of this Application for the purpose of obtaining information and monitoring any approved works as authorized under the Act.
- If an agent is submitting an application on behalf of the property owner, the attached Landowner Authorization Form must be completed.
- This application is not valid for any subsequent stage of the approvals which the proposal may require under the Planning Act, or for any building permits that may be required under the Building Code Act, future stages of approvals will require review by the Risk Management Official to determine if policies apply at that time.

Notice of Collection Pursuant to the *Municipal Freedom of Information and Protection of Privacy Act*, the personal information contained on this form is collected under the authority of the *Clean Water Act*.

This information is used to assess applications and, where approved, issue a Clearance Notice. Information on this form may be disclosed to Government and Municipal agencies for review and comment, or to members of the public through the *Freedom of Information* process.

Questions about the collection of information should be directed to the Ganaraska Region Conservation Authority, 2216 County Road 28, Port Hope, ON, 905.885.8173.

Any false or misleading statement made on this application will render null and void any permission granted.

Acknowledgement

I / we hereby certify to the best of my / our knowledge and belief that all of the above-noted, attached and/or supporting information is true, valid and current.

My / our signature(s) acknowledges that I / we solemnly declare that I / we have read and fully understand the contents of this **Application and Terms and Conditions**.

APPENDIX A

Agricultural Source Material

Agricultural source materials (ASM) include a variety of materials that may be sources of nutrients or pathogens. **Trent Source Protection Plan Policies** apply the definition given in the General Regulation made under the *Nutrient Management Act*, which defines agricultural source materials as the following:

- Manure produced by farm animals, including bedding materials;
- Runoff from farm-animal yards and manure storages;
- Wash water that has not been mixed with human body waste;
- Organic materials produced by intermediate operations that process the above materials (e.g., mushroom compost);
- Anaerobic digestion output that does not include sewage biosolids or human body waste; and
- Regulated compost that is derived from compost containing dead farm animals.

Both the application and the storage of ASM are prescribed drinking water threats.

Non-Agricultural Source Material

Non-agricultural source materials (NASM) include a variety of materials that may be sources of nutrients or pathogens. The *Clean Water Act* applies the definition given in the General Regulation made under the *Nutrient Management Act* (Ontario Regulation 267/03). The *Nutrient Management Act* identifies the following materials that are intended to be applied to land as nutrients, but that are not necessarily produced on a farm:

- Pulp and paper biosolids;
- Sewage biosolids;
- Anaerobic digestion output where less than 50% of the total material is on-farm anaerobic digestion materials (anaerobic digestion is a process used to decompose organic matter by bacteria in an oxygen-limited environment); and
- Any other material that is not from an agricultural source and that is capable of being applied to land as a nutrient (such as materials from dairy product or animal food manufacturing).

Both the application and the storage of NASM are prescribed drinking water threats.
